

Your Software, Your Way

Personalization at Every Level

Storemate adapts to how you work. Not the other way around.

6 Ways To Personalize Everything

Control every aspect of your software. Make it truly yours.

1

Save Filters As Your Preference

Set filters once. Storemate remembers forever. Every login. Every session. Your workflow. Always.

YOU GET

Faster workflows. No setup time. Start working immediately.

2

Table Columns Per User

Show what matters. Hide what doesn't. Different users. Different layouts. Perfect for every role.

YOU GET

Perfect clarity. No clutter. Each team member focused.

3

Unlimited Custom Dashboards

Create as many as you need. Operations. Analytics. Team performance. Whatever matters to you.

YOU GET

Right data at right time. Switch instantly.

4

Branded Waybill Design

Your logo. Your colors. Your brand on every package. Multiple layouts for different situations.

YOU GET

Professional delivery. Every customer remembers you.

5

Custom Invoice Layout

Design invoices your way. Your branding. Your payment terms. Your message. Professional every time.

YOU GET

Professional documents. Builds confidence. Encourages payment.

6

Branded Tracking SMS

Customers get updates from YOU. Your name. Your message. Your brand. Not generic notifications.

YOU GET

Brand consistency. Professional communication. Customer loyalty.

Why Personalization Matters

What you gain when software adapts to you

Faster Workflows

Stop reconfiguring every session. Your preferences saved. Start working immediately.

Perfect Focus

See only what matters. Different staff see different info. No confusion. No clutter.

Brand Everywhere

Your brand on every touchpoint. Waybills. Invoices. SMS. Customers remember YOU.

Team Efficiency

Each team member optimized for their role. Faster work. Fewer mistakes. Higher productivity.

Right Data Anytime

Switch between dashboards instantly. Operations. Analytics. Team metrics. Always at hand.

Your Way Works

Software adapts to your workflow. Not the other way around. You stay in control.

Without Personalization

What happens with generic software

× Filters Reset Every Time

Set up your filters. Next session? Everything resets. Start over. Again and again.

× One-Size-Fits-All View

Everyone sees same columns. Packing staff confused. Too much info. Can't focus.

× Fixed Dashboard Only

One dashboard shows what software thinks matters. You need something different? Too bad.

× Generic Waybills

Your brand invisible. Customer sees courier logo. Software branding everywhere. You disappear.

× Generic Invoices

Generic template. No professionalism. Looks like every other business. No identity.

× System SMS Messages

Customers get "System" notifications. No brand connection. Feels impersonal. No loyalty.
